

Woodruff Arts Center Special Events Fact Sheet

Woodruff Catering- Powered by Sterling Spoon

June 2014

At Woodruff Catering, our approach to cuisine draws inspiration from the company we keep – the Maestros and musicians, master painters and sculptors, actors, artists and luminaries who gather at the Woodruff Arts Center.

Our culinary philosophy reflects fresh, local and seasonal perspectives, carefully considered and expertly finished to compliment any occasion. The farm to fork menu is constantly changing to match the season.

Lively cocktails, relaxed dinners, gala special events or children's gatherings— headline your next memorable visit with the alchemy of style, good taste, and attentive and efficient service that is the hallmark of Woodruff Catering's guest experience.

In addition to our in-house caterer we offer the option to work with a select number of outside caterers. Please ask your event sales manager for more information.

Space	Capacity	Description
Symphony Hall	1,800	Home of the Grammy® Award-winning Atlanta Symphony Orchestra, Symphony Hall is an elegant and spacious three-level performance and presentation space that offers multiple staging options.
Alliance Theatre	765	The proscenium-style theatre offers a hydraulic lift orchestra pit, ample backstage area, counterweight rigging, built-in audio and sound equipment, trap doors in the stage and state-of-the-art lighting equipment. Every seat is great since none are more than 15 rows away from the stage.
Rich Theatre	420	This art deco-style theatre is perfect for movie screenings, corporate events and presentations and is equipped with full AV capabilities, including webcast technology and a 30' x 15' screen that can accommodate a variety of projected formats.
Hill Auditorium	220	Located outside the High Museum of Art, this auditorium features a clean, modern design and is fully equipped with AV technology for presentations, performances, and screenings.
Hertz Stage	200	A modern "Black-Box" theatre with multiple seating configurations, this versatile facility allows for a number of distinct stage layouts including end stage, thrust and in-the-round.
